

NEBOSH Certificate in Fire Safety

Astutis.

Learning Method: Online 

The NEBOSH Fire Certificate equips learners with essential fire safety skills and knowledge, enabling them to safeguard individuals, assets, and workplaces from potential fire hazards. Upon completion of the online course, learners will possess the ability to recognise fire risks and apply various preventive measures.

In addition to the core curriculum, our course emphasises the establishment of a fire safety culture. This aspect plays a pivotal role in mitigating the potential for devastating and occasionally catastrophic losses caused by fires. Create a safer environment for both employees and visitors through completion of the NEBOSH Fire Safety online course.

Who is the course for?

The NEBOSH Certificate in Fire Safety is ideal for those responsible for fire safety in low to medium risk workplaces, including Health and Safety managers, Facilities Managers and health and safety representatives within businesses.

Features of the Online Course

- ▶ Complete the course in your own time.
- ▶ Access learning materials from any device.
- ▶ Reflect on your learning and create your own PDF work notes with a summary of key points.
- ▶ Watch a variety of talking head, key concept videos and fire safety case studies.
- ▶ Hear text read aloud and complete the learning checks.
- ▶ Check your understanding with multiple choice tests and interactive activities.
- ▶ 12 months of unlimited access to an award winning Learning Management System (LMS).

Course Key Facts

Duration: 50-60 study hours

Course content:

The NEBOSH Certificate in Fire Safety consists of 6 elements:

- ▶ **Element 1** – Managing fire safety
- ▶ **Element 2** – Principles of fire and explosion
- ▶ **Element 3** – Fuel, oxygen and ignition sources and control measures
- ▶ **Element 4** – Fire protection of buildings
- ▶ **Element 5** – Safety of people in the event of fire
- ▶ **Element 6** – Fire safety risk assessment

Assessment:

The NEBOSH Fire Safety Certificate course consists of two assessments:

- ▶ **FSC1** – An online, open book examination which candidates have 24 hours to complete.
- ▶ **FSC2** – A practical fire risk assessment which candidates are required to complete in their workplace, using frameworks and standards, such as the Home Office fire guidance and PAS79-1:2020. There is no time restriction for the risk assessment, but three hours is recommended to compile a comprehensive risk assessment.

NEBOSH external examiners will evaluate both parts of the assessment.

The Online course fee includes the NEBOSH exam fee, so there are no additional fees.

Exam dates are set by NEBOSH and can be found on our Exam Hub.
